

Eberly College

Doctoral Candidacy Form

This form should be submitted to the Assistant Dean for Graduate Studies during the semester in which the student passes their candidacy exams/process. Graduate Programs must ensure that all committees adhere to university guidelines. Any changes to committee structure after candidacy is attained must be approved by the Assistant Dean for Graduate Studies.

Doctoral candidates are allowed no more than five years in which to complete the remaining requirements of their program after being admitted to doctoral candidacy to ensure that students earning a doctoral degree have current knowledge in their field. Admission to doctoral candidacy is normally expected to precede work on the dissertation (check program guidelines for exceptions to this expectation).
